WORLD ENVIRONMENT DAY

On this Environment Day, it is important to reaffirm our commitment to sustainable logistics. With 30% of revenues from multimodal logistics, being an ESG-compliant partner is a point of pride. Green warehousing solutions with eco-friendly practices reduce power consumption, costs, carbon footprints, and emissions. The Supply Chain Sustainability Lab's first year saw significant milestones, including the launch of the TEMT (Transport Emissions Measurement Tool) and partnerships with corporations and start-ups to address industry challenges. These initiatives and others in the pipeline align with India's target of net-zero emissions by 2070, demonstrating our commitment to this national effort.
