

TCI Adds 1.5 Lakh Sq. Ft. Cold Chain Capacity at Taj Nagar, Gurugram

Gurugram, 22nd December 2025: As demand for reliable and scalable temperature-controlled logistics continues to rise across the National Capital Region, Transport Corporation of India Ltd. (TCI) one of India's leading integrated supply chain and multimodal logistics solution providers has expanded its cold chain warehousing presence in Gurugram with the addition of a 1.5 lakh sq. ft. facility at Taj Nagar. With over 16 million sq. ft. of warehousing space is managed across India, TCI continues to strengthen its integrated logistics network to support fast-growing and compliance-driven supply chains.

This facility will be operated by TCI Cold Chain Solutions Ltd., a JV Company Between TCI & Mitsui & Co., Japan. The Taj Nagar facility is designed to cater to high-throughput requirements across sectors such as quick Commerce, QSR, pharmaceuticals, food and beverages, dairy, meat and poultry, beauty and life sciences and specialty chemicals.

Strategically located between the KMP Expressway and the Dwarka Expressway, the warehouse benefits from unrestricted 24x7 truck access, being outside heavy vehicle no-entry zones. This enables faster turnaround times and seamless distribution across Delhi NCR and adjoining markets. The facility offers multi-temperature storage across frozen, chilled and air-conditioned zones, and operates on a box-in, unit-out / Box in Box Out / Pallet in Pallet out models with a pay-as-per-use commercial structure. This allows customers to flex capacity and throughput in line with evolving business requirements, particularly in time-sensitive and high-velocity supply chains.

The Taj Nagar belt has emerged as a key logistics hub due to its proximity to NCR (Delhi- Noida-Faridabad- Ghaziabad- Gurgaon- Jaipur) and the growing concentration of quick commerce operations, making it well-suited for Efficient, last-mile- distribution.

Commenting on the expansion, Mr. B. Sumit Kumar, CEO, TCI Cold Chain Solutions Ltd., said *"The expansion of our Gurugram cold chain facility reflects the growing need for dependable, scalable and compliant infrastructure in the region. With strong connectivity and a flexible operating model, this warehouse strengthens our ability to support fast-moving and regulated supply chains across NCR"*.

Built with a strong focus on safety, operational efficiency and sustainability, the facility includes a 500-kW rooftop solar power installation, energy-efficient refrigeration systems, SCADA-based monitoring, VESDA Panel for early smoke detection, and more than 600 CCTV cameras for real time monitoring. The fully gated, access-controlled campus also offers ample truck parking to support smooth inbound and outbound movement.
